EXPERIENCE

Handshake AI - AI Trainer | Remote

Nov 2025 - present

- Wrote and refined prompts for Large Language Models (LLMs) to evaluate response quality, accuracy and relevance.
- Applied human judgement to assess and compare LLM outputs using established evaluation criteria.
- Documented evaluation results and provided feedback to support model improvement.
- Built and maintained prompt/evaluation templates to improve scoring consistency and reduce reviewer ambiguity across tasks.

Grade Potential Tutoring - Math Tutor | Oakland, CA

Aug 2023 – present

- Successfully guided students through challenging topics, such as advanced calculus and algebra, resulting in an average class average of B.
- Boosted students' confidence and performance through targeted support and constructive feedback, resulting in an average 85% improvement in test scores.
- Customized teaching strategies based on continuous progress monitoring, leading to a 90% increase in student retention and 75% improvement in overall class performance.
- Created structured lesson plans, practice sets, and review guides aligned to upcoming exams and individual learning gaps.

Thaddeus Resource Center - Web Development Intern | Remote

May 2024 - Aug 2024

- Led the transition of Thaddeus' website from Webflow to Next.js, cutting ongoing website costs by 50%.
- Built a reusable library of modern React components using TypeScript and Tailwind CSS, improving UI consistency and speeding up feature delivery.
- Delivered a user-friendly CRUD interface for employees to create and manage website popups, improving internal communication efficiency by 90%.
- Collaborated with stakeholders to gather requirements, iterate on designs, and ship updates on a consistent release schedule.

PERSONAL PROJECTS

Game Informer | HTML/CSS/Javascript, React

[Github](#) | [View Project](#)

- Developed an interactive and dynamic game catalog using React, showcasing upcoming releases with real-time updates.
- Integrated a robust search functionality, enabling users to quickly find details about specific games of interest.
- Integrated API calls to fetch and display detailed information about popular games, including release dates, genres, and descriptions.
